WEB ARCHITECT

CATEGORY : Technical
TEAM MEMBERS : 2–3 Members
DURATION : 1 Hour

❖ Description

- Participants must develop a complete website during the event without using any AI tools (such as ChatGPT, Copilot, etc.).

- The website should be unique and must not use copied templates.

❖ Rules for the Event

- A theme will be given, and teams must build the website creatively based on that theme.

- Downloading templates is strictly prohibited. Only self-written code using HTML, CSS, and JavaScript is allowed.

- The website must include at least one unique feature that is not commonly used in basic websites.

❖ Main Format

- The problem statement will be given at the start of the event.

- The use of internet templates is not allowed.

- The theme will be revealed only after the event begins.

<h1 style="text-align:center">TECH ESCAPE</h1>

CATEGORY : Technical
TEAM MEMBERS : 2 Members
DURATION : 1 Hour

❖ Rules for the Event

- Each team must contain 2 members.

- Each participant must be prepared in the fields of computer science, general mathematics, logical reasoning, and problem-solving to answer the questions.

- The use of AI and other tools is strictly prohibited.

- Each team must use only one mobile phone to scan the QR code.

❖ How to Play?

- The total game duration is 45 minutes. Teams may divide their time as they wish to solve each question, but they must complete all tasks within the given time. Late submissions will not be considered.

- The team will receive the first QR code, which contains one question. After solving the question, they will receive a clue that leads to the second QR code (question).
